

Objective

Software Engineer with a Computer Science background seeking full stack web development work with a focus on Javascript technologies.

Relevant Experience

- **Hewlett Packard (Enterprise)** – Plano, TX
Software Engineer (January 2014 – January 2017)
 - Worked as a full stack web developer
 - Developed web and mobile web applications using open source technologies such as Angular, Bootstrap or Foundation, D3/C3, Nodejs/Express, and PHP/Laravel
 - Developed multiple applications to assist with the critical operations of the HP & HPE company split
 - Taught coworkers how to use new open source technologies and modern devops
 - Managed the team's GitHub repositories
 - Wrote automated Selenium tests for the team's web applications
 - Worked as a business analyst
 - Received the Innovation Core Organizational Value award
- **United Services Automobile Association (USAA)** – San Antonio, TX
Software Developer Intern
 - Completed two internships (June 2011-August 2011 and June 2012-August 2012)
 - Worked on internal applications using Java, Perl, Javascript and Visual Basic
 - Developed an internal Android application
- **LegionsOverdrive.com**
Volunteer Game Developer (October 2011 – November 2012)
 - Programmed in C++ and TorqueScript in the Torque 3D game engine
 - Added new features, fixed client & server side bugs, refactored code, and compiled & deployed the server executable
 - Continued to manage the Linux game servers until September 2016
- **Proboards.com**
Volunteer Coding Moderator (Dec 2008 – Dec 2014)
 - Helped customers with HTML, CSS, and Javascript issues on their forums
 - Created mods for the forum software which are still used today
 - Moderated the public support forum
 - Created video and written coding tutorials

Education

- Bachelor of Science in Computer Science
- Baylor University, Waco, TX (Graduated December 2013)

Technical Skills

- Proficient in JavaScript (native, jQuery, Angular, D3/C3), HTML5, CSS3 (native, Bootstrap, Foundations), PHP (native, Laravel), Java, SQL, Apache and Nginx
- Advanced Git user (branching, merging, rebasing & interactive, svn migration, workflow)
- Significant experience in NodeJS/Express.js, Gulp, Grunt, Webpack, React.js/Redux, Ruby on Rails, C++ (Qt, SDL, Torque), MySQL/SqlServer/PostgreSql
- Proficient with the Ubuntu and Redhat Linux operating systems
